

THE UNIVERSITY *of* EDINBURGH  
Institute for Regeneration and Repair

**Suggested wording for JustGiving**

The Institute for Regeneration and Repair (IRR) is a research institute based at the University of Edinburgh. Scientists and clinicians study tissue regeneration and repair to advance human health.

The aim of the institute is to understand stem cell biology, inflammation and disease to develop new therapies to heal damaged tissues. Diseases studied include cancer, heart and lung disease, liver failure, diabetes, and degenerative diseases such as multiple sclerosis and Parkinson's.

The money received through this JustGiving page will go directly to the Institute for Regeneration and Repair. Please donate generously today and help the researchers achieve their goal of discovering treatments and cures for these devastating conditions.

Thank you for your support.
